

KNIVES FOR SLITTER SCORERS

DJA has developed the production of the razor knives made of tungsten carbide and ASP (top one among the HSS steel grades, obtained through the powder metallurgy) in its own workshop.

The traditional circular knives, made of treated D2 (sometimes nitrided) are available for the most common corrugators in the world : Agnati, BHS SRA-TC and SRA-M, Fosber, Göpfert, Marquip, Mitsubishi, Simon, S & S.

CONVERTING SLITTER SCORER

DJA devotes its know-how and skills for its customers by studying and supplying :

- serrated slitting knives and covers made of adapted urethane or steel,
- different knife heads (slit or thicker) and scoring rings,
- quick clamping systems for knife heads and scorers.

TRADITIONAL SLOTTING TOOLS

- Male Slotters
- Female Knives
- Spacers
- Strippers

LAP CUTTING

- Design and production of steel-to-steel lap cutting systems
- The widest range, competing with the OEMs
